Viewing Producer/Supplier/Manufacturer Information

This document will describe how to view a producer, supplier or manufacturer's information.

“Double-click” the **Materials Management** icon located on the Main Panel.

“Double-click” the **Approved List** icon.

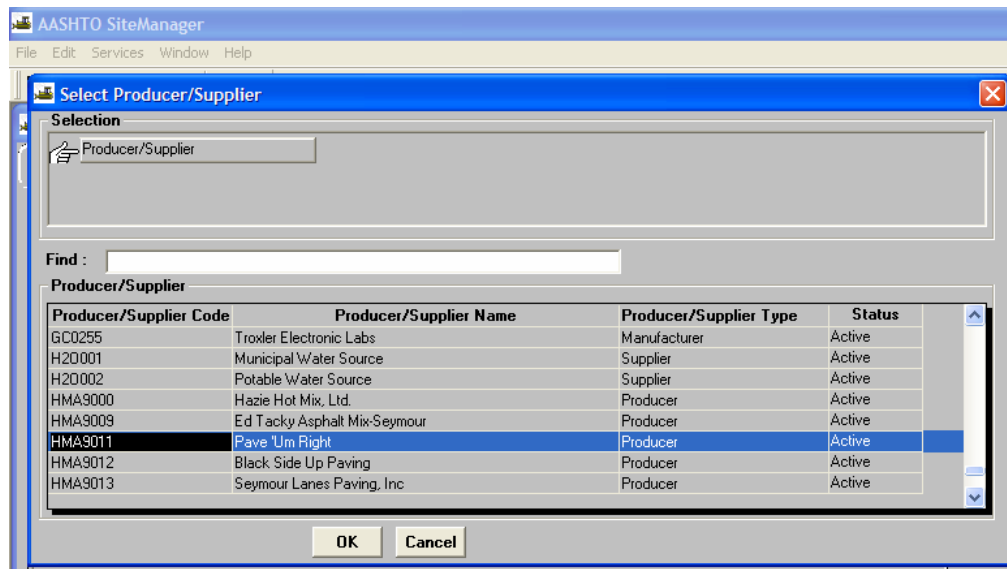

“Double-click” the **Producer/Supplier** icon.

The current code system for the Approved Lists Program shall be utilized when determining the **Producer Supplier or Manufacturer Code**. A reference is listed below:

* the four digit number assigned to the plant.

<u>Producer/Supplier/Manufacture Type</u>	<u>Producer/Supplier Code</u>
Cement Source	WYY1234
Certified Aggregate Source	
• not at a redistribution terminal	QYY1234
• redistribution terminal	QYY1234-5678 (QYY1234 = redistribution terminal) (5678 = originating source code)
Non-certified Aggregate Source	AGG1234*
Certified Asphalt Supplier	ASPH1234*
Certified Guardrail Supplier	QYY1234
Certified Hot Mix Asphalt Producer	HMA1234*
Certified Reinforcing Bar Coater	JYY1234
Certified Uncoated Rebar Manufacturer	JYY1234
Fly Ash Source	WYY1234
Ground Granulated Blast Furnace Source	WYY1234
Inorganic Zinc Primer	CFYY1234
Low Temperature Epoxy Penetration Sealer	CFYY1234
Organic Zinc Primer	CFYY1234
Plastic Pipe Source	JYY1234
Polish Resistant Aggregate Source	PRAS1234
Polysulfide Epoxy Penetration Sealer	CFYY1234
Portland Cement Concrete	CONC1234
Silica Fume	WYY1234
Structural Steel Coating System	WYY1234
Traffic Paint	TRPT1234
Unmodified Epoxy Penetrating Sealer	CFYY1234
Waterborne Finish Paint	CFYY1234
Manufacturer	1234

Select the appropriate producer or supplier name and plant name or manufacturer's name from the **Producer/Supplier Name** field.

“Double-click” on the appropriate **Producer/Supplier Name**.

This step is skipped if a producer, supplier or manufacturer was previously selected.

The screenshot shows the 'Maintain Producer/Supplier' window in the AASHTO SiteManager application. The window has two tabs: 'Description' and 'Plants'. The 'Description' tab is active. The window contains several fields for entering and maintaining producer/supplier information.

Producer/Supplier or Manufacturer Code:	HMA9011	Producer/Supplier or Manufacturer Type:	Producer
Name:	Pave 'Um Right		
Geographic Area:	Crawfordsville Distirct	Sample Origin:	Production Facility

MSE0020	SSL, LLC	Manufacturer	Active

OK **Cancel**

Select the appropriate producer or supplier name and plant name or manufacturer name from the **Producer/Supplier Name** field.
 “Double-click” on the appropriate **Producer/Supplier Name**.

Description Tab

The screenshot shows the AASHTO SiteManager application window. The title bar reads 'AASHTO SiteManager'. The menu bar includes 'File', 'Edit', 'Services', 'Window', and 'Help'. Below the menu bar is a toolbar with several icons. The main window has a tabbed interface with two tabs: 'Description' (selected) and 'Plants'. The 'Description' tab contains the following fields:

Producer/Supplier or Manufacturer Code:	HMA9011	Producer/Supplier or Manufacturer Type:	Producer
Name:	Pave 'Um Right		
Geographic Area:	Crawfordsville Distinct	Sample Origin:	Production Facility
DBE:	Not Required Information	Approval Level:	Central Office - Certified
Contact Name:	Gail Force		
Contact Person Location:	9011 US231 @ I-74		
Status:	Active	Status Date:	04/06/04
Last Modified User ID:	smcreatr	INDOT	Last Modified Date: 04/04/05

Producer/Supplier or Manufacturer Code: The **Producer/Supplier or Manufacturer Code** is a unique code that is used for a manufacturer or each plant of a producer or supplier.

Producer/Supplier or Manufacturer Type: The **Producer/Supplier or Manufacturer Type** field identifies the type of material that is produced, supplied or manufactured.

Name: The **Name** field identifies the producer or supplier's name and plant name or the manufacturer's name.

Geographic Area: The **Geographic Area** field indicates the assigned lab location that will perform verification tests on materials obtained from the manufacturer or producer or supplier's plant.

Sample Origin: The **Sample Origin** field indicates the location where a verification sample is obtained.

DBE: The **DBE** field is used to track the DBE status of a source so INDOT can receive credit for material supplied from a DBE source. Currently INDOT is not utilizing this field.
